Executive Summary

Entry-level Java Full Stack Developer with hands-on training and internship experience in Java, Spring Boot, Spring MVC, JDBC, REST APIs, and MySQL. Eager to build scalable applications, solve real-world problems and backend solutions using modern development practices. Passionate about dynamic software engineering and eager to contribute while continuously learning and growing.

Technical Skills

- Full Stack Development: Java Full Stack | Programming Languages: Java, Core Python
- Languages & Frameworks: Spring Boot, Spring MVC, Spring Framework, JDBC, Servlets, JSP
- Web Technologies: REST APIs, HTML, CSS, JavaScript, Bootstrap
- Databases: MySQL
- Tools: Maven, Git
- Core Concepts: OOP, Collections Framework, Exception Handling, Dependency Injection, IoC, MVC Architecture, CRUD Operations
- Emerging Interests: Software Engineering, Digital Marketing

Soft Skills

- Problem Solving
- Communication
- Leadership
- Adaptability
- Time Management
- Quick Learner

Professional Experience

Systech — Java Full Stack Intern

September 2025 – October 2025

- Assisted in developing Java-based web applications using Spring technologies
- Implemented CRUD operations with MySQL databases
- Developed responsive front-end pages using HTML, CSS, JavaScript, and Bootstrap
- Integrated backend components with relational databases
- Worked with Git and GitHub for version control
- Tested and debugged application modules to ensure functionality

Impact: Contributed to a fully functional full stack web application, strengthening hands-on experience across the Spring ecosystem and relational database integration.

Systech — Java Full Stack Trainee

October 2024 – October 2025

- Completed comprehensive training in Java Full Stack Development
- Built applications using Core Java, JDBC, Servlets, JSP, Spring Framework, Spring MVC, and Spring Boot
- Designed and managed MySQL databases for backend applications
- Developed RESTful APIs and integrated them with frontend components
- Applied Object-Oriented Programming principles and MVC architecture
- Used Git and GitHub for version control and collaborative development

Impact: Built a solid foundation in end-to-end Java full stack development through structured, project-based training.

Systech — Python Programming Intern (Core)

July 2022 – August 2022

- Learned Python programming fundamentals, including variables, data types, loops, functions, and OOP concepts
- Developed console-based Python applications to strengthen problem-solving skills
- Worked with file handling and exception handling
- Completed programming exercises and mini-projects as part of the training

Impact: Established core programming fundamentals that supported later full stack development training.

Education

Bachelor of Engineering (B.E.), Computer Science and Engineering

M.A.M College of Engineering | 2022 – 2026 | CGPA: 8.08

Certifications

- Java Full Stack Development – Systech (2024–2025)
- Java Full Stack Internship – Systech (Sep 2025 – Oct 2025)
- Python Programming (Core) – Systech (Jul 2022 – Aug 2022)

Workshops

- Artificial Intelligence Workshop – National Institute of Technology, Tiruchirappalli
- .NET Development Workshop – Indian Institute of Technology Madras

Leadership Experience

Hackathon Team Leader

- Led a multidisciplinary team during a hackathon
- Coordinated task allocation, solution planning, and project execution
- Collaborated with teammates to develop and present the final solution

Event Coordinator – Debugging Competition

- Organized and managed a college debugging competition as part of the department symposium
- Coordinated event logistics, participant management, and evaluation activities
- Worked with faculty and student volunteers to ensure smooth event execution

Awards & Accomplishments

- 3rd Place – CSE Technical Presentation Competition, M.A.M College of Engineering
- Team Leader – Represented the department by leading a team in a Hackathon
- Successfully completed Java Full Stack Development training at Systech
- Successfully completed Java Full Stack Internship at Systech
- Successfully completed Python Programming (Core) training at Systech
